

The Generalists in Medical Education Session Types

The essence of The Generalists in Medical Education national meeting is sharing, learning, and interaction among health professions educators. There are a variety of session formats which promote collaboration, innovation, and dissemination of your scholarly work. Interaction and participation are valued in all sessions.

To submit a proposal, we recommend that you navigate in this document to the session type you wish to submit. Create a Word document addressing each of the required elements in the structured proposal. Copy and paste that information into the required fields in the call for proposal submission form. At the end of that form, you will be asked to upload the Word document of your proposal.

Proposals are limited to 5000 characters including spaces and excluding the title and references (roughly 800 words).

Common Interest Roundtable Discussions

Common Interest Roundtable Discussions are topic-specific discussion groups. The purpose is to provide a mechanism for sharing experiences, including innovative technologies, studies, or curricula in progress. Table Leaders will briefly present the topics for discussion and then facilitate interaction among table participants.

Submit a structured proposal that includes the sections described below. **To ensure blind review, please do not include any identifying information (persons, institutions, etc.) in the structured proposal field.**

Descriptive Sessions

Descriptive Presentations are scholarly presentations focused on an educational innovation or research project. Structure the proposal around a research or innovation evaluation question which follows a logical sequence of reporting the background, purpose, methods, anticipated results/outcomes, and a discussion of findings. Topics directed toward the broader definition of scholarship are included here and some type of evaluative process with research results or outcomes data is expected at the time of the presentation. A moderator will coordinate the presentations and help facilitate the discussion with the audience. Each presentation will be allocated a 10-minute presentation time followed by 5 minutes for audience discussion and exchange.

Ignite Presentations

Ignite Presentations provide the opportunity for presenters to quickly report a thought-provoking idea or story to the audience that might merit further exploration. An Ignite Session will include many back-to-back conceptually or methodologically related presentations in rapid succession which will ignite the audience to share in the creative process of furthering investigation of the idea. Authors are encouraged to have **visually compelling** presentations accompanied by rich narratives or storytelling. Presenters get 20 slides, which will automatically advance every 15 seconds for a total of five minutes. The audience will be briefed at the beginning of the session on their role as experts providing feedback to the presenter in the brainstorming session that will follow the Ignite Session.

Problem-Solving Sessions

Problem-Solving Sessions are designed for intensive, small group discussion focused on a particular issue, theme, or problem. The presenter introduces the session by providing stimulus material and is also responsible for organizing group interaction on the topic. A variety of group facilitation strategies can be used to explore potential solutions or alternatives. At the end of the session, the groups share their ideas, and a summary of potential solutions is developed.

Skill Acquisition Sessions

Skill Acquisition Sessions are instructional sessions in which presenters teach particular skills or techniques. The session should accomplish specific learning objectives designed to provide Generalists with increased competence in some area of medical education. The session should include opportunities for practice and feedback. When this is not possible, the sessions must include time to discuss how skills can be applied in the participants' work settings.

Proposal Review Criteria

The essence of the Generalists in Medical Education national meeting includes sharing, learning, and interaction among health professional educators. Interaction and participation are valued in all sessions.

Proposals (**blinded to author and originating institution**) will be reviewed by a committee that includes Generalists with a wide range of experiences. Read the session descriptions and give thought to content and session plan. Reviewers will be asked to evaluate proposals using the following criteria:

1. **Proposal Quality:** The written proposal is clear, complete, and well-organized. Clear proposals concisely explain the topic, goals, objectives, and format and are understandable for someone not familiar with the content area (avoid jargon). The title matches description and abstract and is relevant, original, and intriguing.
2. **Purpose:** The proposal includes clear goals/purpose and describes the benefit to target audience. The session objectives and plan are provided.
3. **Importance/Contribution to the Field:** The proposal offers important results, creative or innovative practice or development, and/or an opportunity to enhance insights on a relevant or timely topic. It is generalizable and portable; it includes strengths and weaknesses. Conclusions are well supported. Suggestions are offered for further study.
4. **Preparation:** The proposal is well-grounded in a theoretical/conceptual framework, relevant literature, and/or prior work. It demonstrates authors' familiarity with the topic. The interaction methods match the intended purpose of the proposed presentation.
5. **Engagement:** The proposal describes methods/activities and a detailed plan for use of time that will engage participants, encourage reflection and critique, and achieve the goals/purpose of the proposed presentation. Format and content should fit session type.
6. **Membership Appeal:** The proposal represents work or addresses a topic/issue that is relevant or important to members of the Generalists in Medical Education.
